

**Dear Future Me,**

I've just perfected iOS sideloading and am basically smarter than I IT. I am very excited to be moving to secondary school! I am an ACTUAL wizard at technology and I am very messy. I love experimenting with technology in general. I hope you are doing something interesting. My favorite movie is *Back to the Future Part 2*. Right now, I want to stop biting my nails. If you have not stopped doing that, STOP! Did you make any good friends in year 7 and 8? I currently make projects. WWDC 25 is in **2 Days!** I am on my 2nd **fountain pen** and iPas case which are TOTALLY unrelated. The current Minecraft update is Spring to Life (which made animals ugly), So I play 1.21 instead. This letter will be uploaded to archive.org. Secret: If you go to the bathroom at exactly 4 AM and yell "Among Us" 69 times, a shadowy figure will take you to a place known as the orphanage.
